

## The hygienic industrial mat with the AGR seal of approval.

- o The hygienic rubber mat is manufactured with an antimicrobial and homogeneously distributed additive to prevent the formation of bacteria and fungi.
- o The hygienic mat is suitable for application areas such as the food industry, canteen kitchens, and restaurants.
- o The high-quality materials ensure a relatively odourless mat, which can therefore also be used in closed rooms.
- o The hygienic rubber mat is easy to clean with commercially available cleaning agents.
- o The hexagonal hole geometry enables a large number of holes to be drilled into the smallest possible space – this results in even faster drainage of liquids and oils.

Surface	Size	Biocidal properties	Material	Hardness	Colour
CLEAN Dry	1350 x 1000 x 16 mm*	Fungus and	NBR**	55 Shore A	
CLEAN Diamond	1350 x 1000 x 20 mm*	bacteria	NBR**	55 Shore A	
CLEAN Superdrain	1350 x 1000 x 18 mm*	inhibiting	NBR**	55 Shore A	

\* Tolerances according to DIN ISO 3302 - 1 M4; \*\* It may cause slight discoloration on light floors

## Surface and backside geometries
