

VARIO

Rotation friendly and
easy cleaning:
VARIO ensures the perfect
performance at the workplace.

VARIO

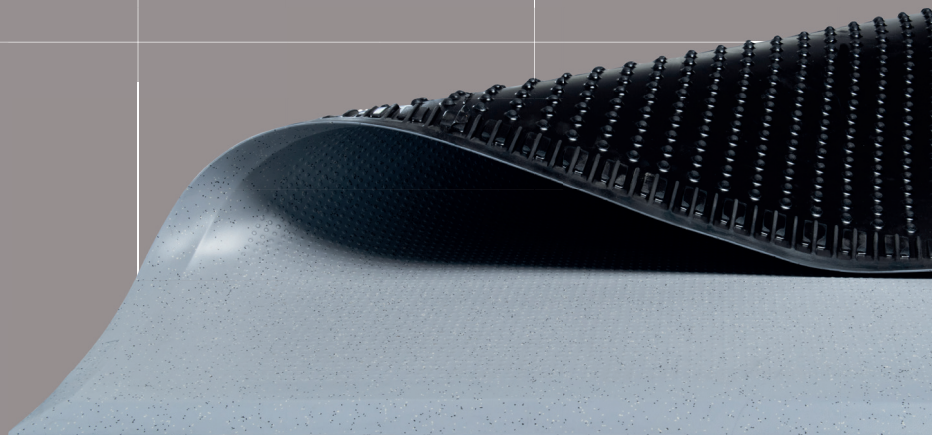

The high quality, rotation friendly and easy to clean ergonomic rubber mat for high-footfall areas and stand-up workstations.

Dry

Backside

- The ergonomic rubber mat is suitable for workplaces at workbenches, production lines, assembly tables, counters, cash desks as well as for walking and standing workplaces in the office area.
- For the perfect first impression – the high quality and bright ergonomic workplace mat with light reflective properties.
- The surface of the rubber is rotation friendly and at the same time impresses with its slip and lying resistance (mat weight of 20 kg).
- Very easy to clean! Wipeable surface like conventional industrial floors.
- Safety at the highest level: the antistatic and flame-retardant rubber mat has the fire protection class Bfl-s1.
- Due to the elastic properties of the rubber compound and the special geometry on the back, the mat has a particularly shock-absorbing and activating effect.
- The durable mat – suitable for multi-shift operation (24/7).
- The strength and the high-quality material of the industrial mat protect against unhealthy cold radiating from the ground.
