

The hard-wearing rubber flooring for high mechanical stress

- o Driving and impact noises are absorbed by the **soft underside**
- o Suitable for **intensive walking** and **work traffic**
- o The industrial floor **withstands heavy mechanical stress** (e.g. forklift trucks, etc.) and ensures **good trafficability**.
- o The industrial floor is the ideal floor for **production halls, warehouses, picking areas**.
- o MOOVETEC rubber mat **insulates against cold from the floor**
- o The trafficable rubber flooring has **fire protection class Bfl-S1****.

flame resistant

Surface	Size	Properties	Material	Hardness	Weight	Colour
FLOOR Dry	1330 x 709 x 12 mm*	Insulating noise-insulating Trafficable (pallet truck, ...) Antistatic Fire protecting class Bfl-s1	SBR***	85 Shore A	6,4 ± 1 kg
